

# RENDEZVOUS ROUNDUP 2010

The **best boat parties** of the year!

## COMMANDER

From greeting old friends to meeting new ones, the 12th Annual Commander rendezvous was another success with 33 boats.

Once again Todd Koroll (technical support manager at Volvo Penta Canada) led the Tech Talk session. Following that Paul Rayburn of Rayburn Yachts, the new owner of Commander Marine Inc. was introduced. Paul assured us there was no plan to change our beloved Commanders. He and his father, Ron, recognize the great design of this favourite West Coast boat and will continue with the tradition. That being said, there has been one change: the colour is now navy blue instead of marine blue. With that, there will be no problem recognizing a new production boat. Watch for more 38-foot vessels!
